

**Participant #:** \_\_\_\_\_

**CREATING BLOCK-PRINTED PERSONAL VISUALIZATIONS**

**DEMOGRAPHIC INFORMATION**

This information is collected for demographic purposes only. All questions are optional.

**1. Age:**

- 18-25                       26-35                       36-45                       46-55  
 56-65                       66 or older

**2. Gender:**

- male                       female                       other

**3. Are you currently a student?**

- Yes                      No

**4. If you are a student, please indicate your **current level of education**. If you are not a student, please indicate the **highest level of education** you have **completed**:**

- High school or equivalent                       Vocational/technical school (2 year)                       Some university                       University Graduate (4 year)  
 Master's degree                       Doctoral degree (PhD)                       Professional degree (MD, JD, etc.)                       Other: \_\_\_\_\_

**5. What is your field of study or expertise?**

\_\_\_\_\_

**6. Are you color-blind?**

- Yes                      No

7. How would you rate your expertise level with arts and crafts, on a scale of 1 to 5 (beginner = 1, expert = 5)? (Circle one)

1                      2                      3                      4                      5

8. What type(s) of arts and crafts do you create, if any?

---

9. Have you carved stamps before, either from potatoes or a similar material?

Yes                       No

10. How often do you track data in your life? (Circle one)

Not at all                      once a year                      once a month                      once a week                      every day

11. What type(s) of data do you track?

---

12. How do you describe your expertise level with visualizations, on a scale of 1 to 5 (beginner = 1, expert = 5)? (Circle one)

1                      2                      3                      4                      5

13. Have you taken a class on data analytics, information visualization, or a similar topic before?

Yes                       No

14. Please check the places where you have seen visualizations in use:

In an app                       On the web                       In a newspaper                       On TV  
 In a textbook                       Other \_\_\_\_\_

15. Please indicate the approximate length of time you have trained, worked, or had an active interest in data visualizations. (Circle one)

Not at all                      < 1 year                      1 – 2 years                      3-4 years                      5+ years

16. Please indicate approximately how often you use data visualizations, including viewing visualizations on the web. (Circle one)

Not at all                      once a year                      once a month                      once a week                      every day

**17. Please indicate approximately how often you make visualizations. (Circle one)**

Not at all

once a year

once a month

once a week

every day

**18. If you do make visualizations, what types of visualizations do you make? Are they done on a computer, on paper, with physical materials (ex. legos, beads), etc...?**

---
